## Scrub and Recoat with Hillyard Glacier Pads & Aviator® Finish

### How Do Glacier Pads Work?

Glacier Pads are manufactured out of an open-cell white polymeric foam. The foam pulls out the dirt and grime lurking in microscopic grooves and pits in the floor finish, creating a better foundation for top-coating. The result is an increase in gloss and a better looking floor.

1

### Scrub

Use a slow speed floor machine or autoscrubber with Glacier P2 Pads and a neutral floor cleaner, like Hillyard's Green Seal™ certified Top Clean.®

2

### Coat

For best results, apply 1 to 2 coats of Hillyard Aviator fast drying floor finish. The Hillyard Glacier Pad System also delivers excellent results with other Hillyard finishes like Top Shape®, Explorer®, Navigator®, new and improved Equalizer®, One Plus®, and EP-22.®

3

### See the Results!

Testing reveals a 22% and 29% increase in gloss levels after 2 coats of Hillyard Aviator when compared to traditional scrub processes with blue pads and Surface Preparation Pads.

Glacier P2

**Better Gloss!**  
22 - 29% Increase!

Traditional Blue Pad

Surface Preparation Pad

Gloss Levels

### Aviator, Fast Drying, Saves Time!

- 4 Coats per Hour
- Excellent Gloss
- Burnishable
- Easy to Apply

# Glacier MSP - Manual Scrub Pad

## Simple, Fast, Great Results

Tile and grout restoration without harsh acid and powder-based chemicals.

1

### Scrub & Rinse

Apply Hillyard Suprox®-D or Green Seal™ certified Suprox. Scrub using a pad holder and Glacier MSP Pads.

2

### See the Results!

- Cleaner tile surfaces.
- Brighter grout lines.

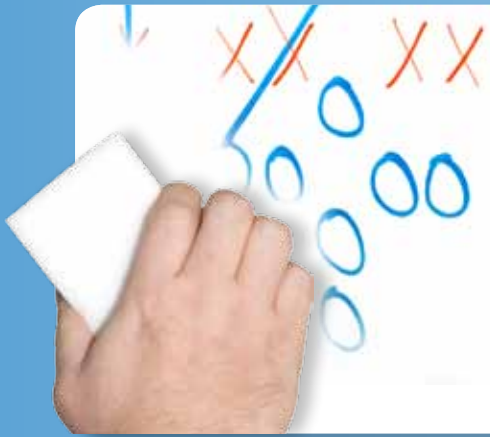

Suprox, the hydrogen peroxide based cleaner, keeps your grout looking brighter over time!

*Suprox-D is an EPA registered disinfectant with the cleaning power of peroxide!*

Glacier Pads' white polymeric foam pulls out the dirt and grime lurking in tiny grooves and pits in the tile, resulting in a cleaner surface!

## Hillyard HSP - Hand Scrub Pad

Add a splash of a Hillyard cleaner like Green Select® Degreaser Cleaner and Hillyard HSP pads will easily remove scuff marks and dirt. Hillyard Pads are versatile enough to use on many surfaces like:

- Tile, Vinyl & Laminate
- Stainless Steel, Glass & Plastic
- Drywall
- And More!

*Always test in a small inconspicuous spot before using.*

## Glacier P2's - An Environmentally Preferred Process

- Use Green Seal™ certified products like Hillyard Top Clean for the scrubbing process, and Hillyard One Plus or EP-22 floor finish for coating.
- Enhanced results may reduce the number of coats required to meet expectations, saving time, and reducing both labor and materials.

## Best Practices

Ask your Hillyard Representative about utilizing the Hillyard C3® Cleaning Companion® and Glacier P2's in a best practice approach to scrub and recoats.

Name	Description	Size	Case Pack	Item No.
Glacier P2	Prep and Polish Pad	13" Round	5 Pads	HIL49940
		14" Round	5 Pads	HIL49941
		17" Round	5 Pads	HIL49942
		20" Round	5 Pads	HIL49943
Glacier MSP	Manual Scrub Pad	10" x 4.5"	6 Pads/Bx, 10 Bx/Cs	HIL49939
Glacier HSP	Hand Scrub Pad	4.7" x 2.65" x 1.5"	24 Pads	HIL30312

Hillyard MSP pads are designed to be used with a pad holder like the Rubbermaid RUBQ311GY.
